## **Machine Learning: Tools, Techniques and Applications**

**Date: 01.05.2018**

**Prof. (Dr.) Mahesh M. Goyani**

### **Holistic Face Matching:**

Step 1: Load template images

Step 2: load query image

Step 3: Find distance of query image from each of the template image using euclidean distance or cross correlation

Step 4: Find minimum ED or maximum CORR index

Step 5: Predict the class
